### Customer information on the German Packaging Act (VerpackG)

---

Dear Sir or Madam,

Beckhoff Automation GmbH & Co. KG is aware of the environmental impact of packaging waste and dispenses with plastics in favor of sustainable packaging materials where economically and technically feasible. Our transport packaging consists of uncoated cardboard, which can be recycled as wastepaper. Air chamber films made of HDPE film are used to protect the products. The materials used are 100% recyclable. As products from Beckhoff Automation GmbH & Co. KG products are high-quality electronic components, product packaging to protect the goods cannot always be avoided. This applies to the packaging of e.g. hard disks and small parts. Here, the product is additionally protected with foam and film.

The plastic pallets used by Beckhoff Automation are made of recycled PE-PP (polyethylene - polypropylene) and are 100% recyclable.

Packaging used for shipping and packing our products in Germany is subject to the requirements of the German Packaging Act (VerpackG). Beckhoff Automation GmbH & Co. KG has complied with the registration obligations of the VerpackG. Beckhoff Automation is registered as a distributor of packaging with the central packaging register under the number DE2922266695003.

The (transport) packaging we use is not considered to be "subject to system participation", as we operate exclusively in the corporate customer business and do not supply our products to private end consumers.

Beckhoff Automation complies with the requirements of the Packaging Act and takes back transport packaging free of charge at the place of actual delivery and recycles it properly. The transportation costs for packaging to the place of return shall be borne by the sender.

We have provided all information to the best of our knowledge and belief. They correspond to the current state of the art and technical documentation. If you have any further questions, please do not hesitate to contact us.

Best Regards

Beckhoff Automation GmbH & Co. KG
