**Regulation (EU) 2024/573 on fluorinated greenhouse gases**

Dear Customer,

Fluorinated greenhouse gases are human-made chemicals that are very strong greenhouse gases, which are often several thousand times stronger than carbon dioxide (CO<sub>2</sub>). Regulation (EU) 2024/573 of the European Parliament and of the Council was adopted to reverse the increase in fluorinated greenhouse gas emissions.

We hereby confirm that Beckhoff Automation products do not contain cooling or refrigerating agents and comply with Regulation (EU) 2024/573 on fluorinated greenhouse gases.

Best regards

Dr. Hatice Söyler
