Regulation (EC) No 2024/590 on substances that deplete the ozone layer

Dear Customer,

Man-made ozone-depleting substances destroy the protective ozone layer, and, in 1987, the international community established the Montreal Protocol to cut their consumption and production. To fulfil its obligations under the Montreal Protocol, the EU has adopted the more ambitious EU Ozone Regulation.

We hereby confirm that Beckhoff Automation products meet the requirement about the prohibition of ozone-depleting substances, insofar as a general ban applies.

This includes compliance with the international Montreal Protocol, which is implemented in the EU by [Regulation \(EC\) No. 2024/590](#) on substances that deplete the ozone layer.

Best regards

Dr. Hatice Söyler
